

Why Fiberglass?

Why Fiberglass:

- Fiberglass is Non Abrasive = less chance of Injury and Scrapes vs Concrete Pools
- Fiberglass's internal structural strength and quality out performs other pool related construction material.
- Fiberglass Offers a high quality luxurious Finish.
- Examples of other Fiberglass applications: Bathtubs, Boat Hulls, Water Tanks, Jet Airliner components, etc...
- Eco Friendly: Fiberglass Is an ECO friendly material that has been designed and tested to last for decades and has been rated as one of the best energy efficient materials available on the market due to its inherent insulation properties. Because of its longevity it reduces unnecessary Toxic landfill waste from having to replace Vinyl Liners.

Why Leading Edge:

- **Lifetime Warranty:** Leading Edge offers the industry's most comprehensive Lifetime Warranty on all of our Leading Edge Fiberglass shells.
- **Leading Edge Safety Features:** Algae and Bacteria defense system, Deep End Swim Outs, Safety Edges, Textured Slip Resistant Steps and Floors.
- **Pet Friendly:** Leading Edge Fiberglass shells are pet friendly and will not tear or cause harm to a pets claws, thus allowing owners and their pets to enjoy the therapeutic qualities of aquatic fitness together
- Leading Edge Fiberglass products require minimal maintenance lowering the cost to maintain and operate your pool, Spa, Swim Shaper and Tanning Ledge.
- Leading Edge Fiberglass pools require less Filtration, Chemicals and offers lower acidity levels compared to concrete pools.
- Leading Edge Products are built, engineered and designed using today's latest Technology and Materials available.
- Leading Edge Fiberglass pools, Spas, Swim Shaper and Tanning Ledges do not require yearly shell maintenance and will never need to be resurfaced or require you to replace a vinyl liner, saving you thousands of dollars over the lifetime of your pool vs Concrete or Vinyl Liner pools
- Leading Edge uses only specifically designed Premium grade Vinyl Ester Barrier Gel Coats that have a proven track record and offer a superior resistance to Osmotic Blistering, Cracking and Elevated Temperatures.
- Leading Edge uses a superior Marine Grade Gel- Coat which is a Non Porous material that inhibits the buildup / formation of Algae which limits the cost to chemically maintain & treat your pool water.
- Our products are manufactured within a controlled environment ensuring you that your pool, spa, Swim Shaper or Tanning Ledge has been **manufactured to the Highest Quality standards** and Federal pool regulations available.

All of our products are proudly Handcrafted and Made in the U.S.A.
