

Grand Traverse

Color shown: *Marina Blue*

If you love the eye-catching layout and attention-grabbing design of the Traverse Bay, have a look at its counter part, the gorgeous Grand Traverse. We're pretty sure you will be both impressed and amazed by this beautiful fiberglass pool. The free-form, rounded shape and design of the Grand Traverse has the exact same look and feel as the Traverse Bay, with a little extra oomph. At first glance, the Grand Traverse appears to be identical to the Traverse Bay. Although it is very similar as far as its general functionality and characteristics, the Grand Traverse offers an extensive list of additional features, which are sure to please and will ensure your entire family's enjoyment for years to come. Seeing is believing when you check out the additional features of the breath-taking Grand Traverse. See what else this fabulous pool has to offer you:

- The difference is in the depth! While the Grand Traverse has the exact same size, shape and capacity as the Traverse Bay, it offers an extended depth of 3'5"-8'2". With this additional depth of the Grand Traverse, Leading Edge is able to offer a diving board option, a very desirable pool accessory add-on feature, that's available for and exclusive to the Grand Traverse only and guaranteed to provide hours upon hours of fun for your whole family. (diving board feature available and limited only to the Grand Traverse design due to its extended depth)
- Features the same attractive, visually-appealing and free-form, curvy shape of the Traverse Bay
- Spacious bench seating conveniently situated on both sides of the pool, two in the shallow end and one in the deep end
- Lavish 16'x36' size and ample capacity of 18,000 gallons
